**PREMIUM KILN DRIED  
DOUGLAS FIR BOARDS**

**A WOOD FOR ALL SEASONS**

The natural beauty of Douglas Fir makes it an ideal candidate for a wide variety of applications. Whether for interior or exterior use, this versatile species has an unbeatable edge over its competitors.

Boasting a remarkable uniformity of appearance with its straight grain and reddish brown coloring, Douglas Fir can provide either a rustic or a notably modern appearance. When properly dried the wood is extremely stable, very strong, has good longevity and is chemical free. In addition, Douglas Fir has excellent screw and nail holding properties and holds paints and stains well.
